

AMBASSADOR ENSIGNS

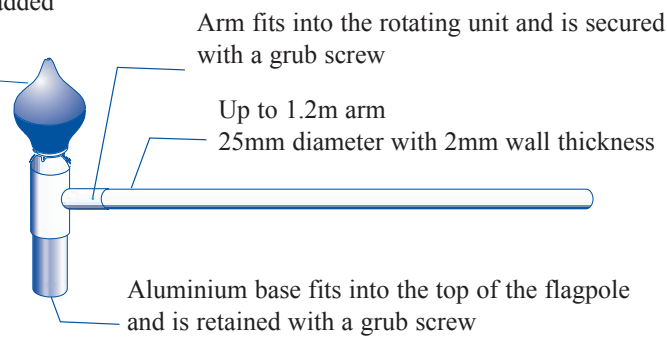

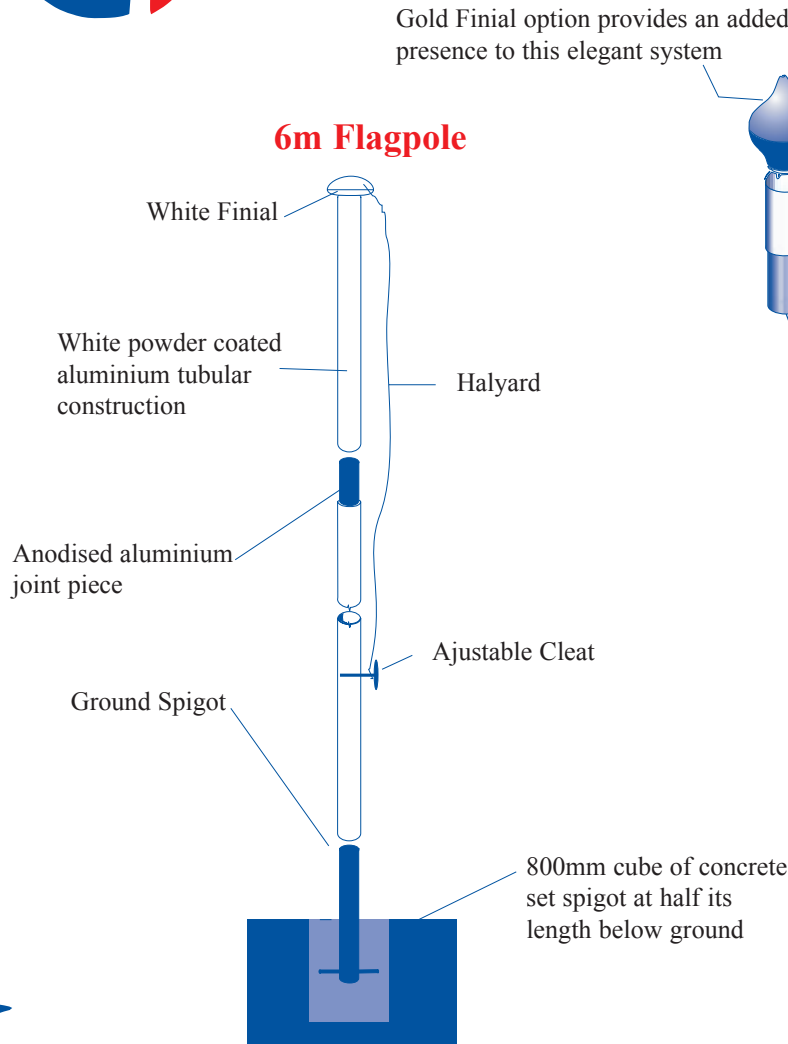

SIX METRE & EIGHT METRE GROUND MOUNTED FLAGPOLES

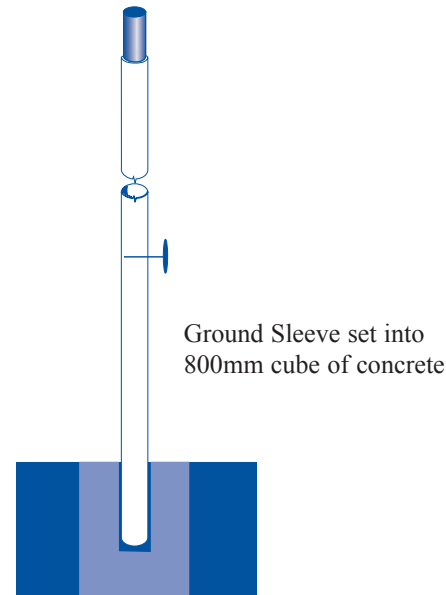

Ambassador Ensigns offers a standard range of tough, sleek and durable two section 6m (20ft) & 8m (26ft) flagpoles. Each one comes in white powder coated aluminium with a 3mm wall thickness completed with a white finial, halyard, adjustable cleat, ground spigot or ground sleeve. Gold finials are available as an option.

6m Flagpole

8m Flagpole

ROTATING ARMS

We also offer an elegant white powder coated rotating arm system. Fabricated from aluminium the unit provides strength and stability which is second to none in the industry. The arm, 25mm in diameter and 1.2m long, is made for our standard 6m and 8m flag poles.
